- Teaching Assistant for the IT-Workshop-1 course.
   Duration: Aug 2016 Dec 2016

# **PROJECTS**

# Pixeo- A video streaming and sharing site(intranet)

May 2017 - Jun 2017

It's a site hosted on my institute's intranet where a person can upload, stream video lectures. It's written in php from scratch(I.e without the use of any framework) hosted on Apache web-server.

## Firob-Fundamental Interpersonal Relations Orientation Behaviour

Oct 2017 - Present

#### https://firob.000webhostapp.com

It's a project to store user input which depicts their behaviour and displays the result on the basis of some constraints. A professor of my institute approached me with problem. So I suggested him the idea of this project as a solution.
